

# WE'RE HIRING

**Would you like to be part of a team of talented environmental professionals who work together to make a positive difference? Then Ecofish wants to hear from you!**

Ecofish is looking for a **Junior or Intermediate Level Environmental Scientist** to join our team in the Victoria office, working collaboratively on environmental studies to identify, assess, and monitor potential effects on environmental resources such as water quality, salmon populations and marine communities. The successful candidate will have previous work experience in one or more of the fields of water quality, limnology, fisheries, environmental science, marine ecology or oceanography. The candidate will be based in the Victoria office, but have the opportunity to work with all members of our diverse team.

## **Professional Qualifications and Skills (one or more of those listed below):**

- B.Sc. with three years of experience or relevant M.Sc. with one or more years of experience.
- Experience analysing and evaluating water quality, fisheries or population data in the context of environmental effects.
- Strong technical writing skills, including experience writing data reports.

- Familiarity with British Columbia and Federal Water Quality Guidelines.
- Experience with fieldwork collecting water quality, fisheries, and/or other environmental data in challenging environments.
- Competent user of one or more scripting language for data manipulation (e.g., R, Python, MATLAB)
- Experience in marine nearshore ecosystems.
- Effective time management, organizational, communication and inter-personal skills.
- Able to work under pressure in a fast paced environment and adhere to strict deadlines.
- Previous consulting experience an asset.

**Apply Now!** We offer a rewarding career and engaging culture based on our core principles: scientific excellence, professional environmental ethics, business discipline, and social responsibility. There will be many opportunities for career growth, including support from industry-leading mentors. We also offer competitive wages (including overtime), quarterly profit sharing, and a health and wellness program. Please send a resume, cover letter and three references to [jobs@ecofishresearch.com](mailto:jobs@ecofishresearch.com). **Applications will be accepted until July 16, 2018.** Only those applicants that are selected for an interview will be contacted. No phone calls please.

### About Ecofish

Ecofish Research Ltd. began in Vancouver in 2001 to meet the need for reliable, trustworthy science-based environmental consulting. You can read our full story <http://www.ecofishresearch.com/about-us>.
