

WE'RE HIRING

SENIOR CONSTRUCTION ENVIRONMENTAL MANAGEMENT SPECIALIST

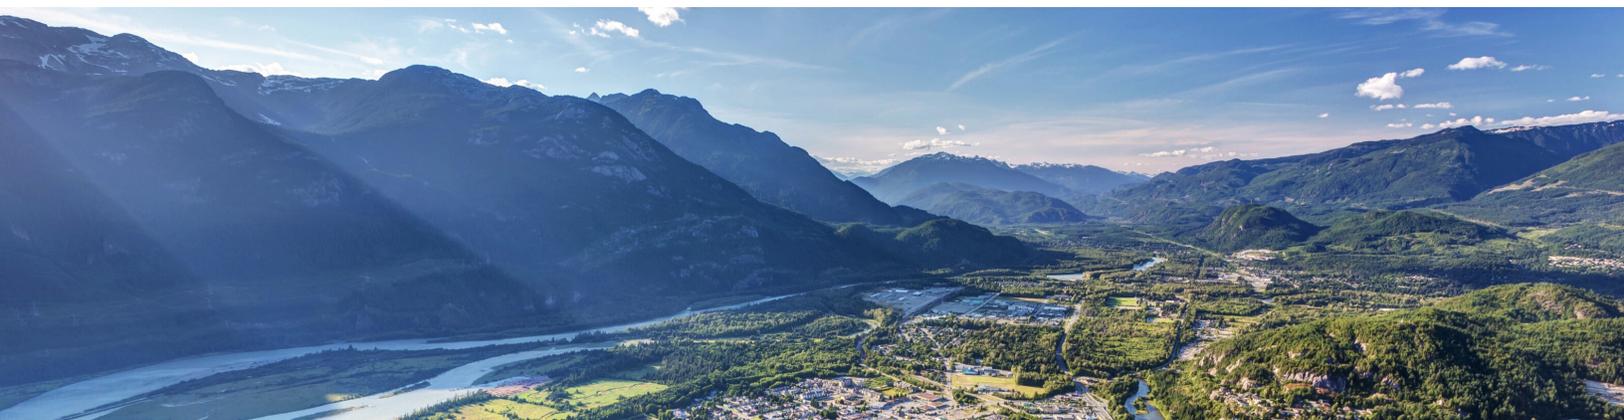

Science Practices Department

Terrace, Fort St. John, Courtenay or Vancouver, BC

We are looking for a **Senior Construction Environmental Management Specialist** to join our team of experienced and skilled professionals based out of our Terrace, Fort St. John, Vancouver, or Courtenay office. We provide a safe, supportive and engaging culture that is based on innovation, collaboration, integrity, with the opportunity to apply new technology, gain analytical skills, and realize your career potential. Our compensation plan is competitive and there are great opportunities for growth and advancement through mentorship, training, and other professional development opportunities.

The successful candidate will be welcomed into an exceptional team of professionals dedicated to science-based, ethical environmental consulting, collaborating on fascinating and challenging assignments. This role will be responsible for:

- Overseeing daily activities and acting as a primary lead on environmental aspects of assigned projects, ensuring Ecofish's expectations and interests are continually met.
- Working as part of an extensive Construction Environmental Management team and subject management experts (SME).
- Drafting, implementing, and evaluating environmental strategies, compliance plans, and management systems.
- Liaising directly with client and construction contractors.
- Coordinating the work of environmental technicians and staff.

QUALIFICATIONS AND SKILLS:

If you have the following qualifications and are looking for an exciting and challenging opportunity, we would like to hear from you.

- Registered professional (R.P.Bio, P.Geo., P.Ag., or P.Eng. preferred).
- 10+ years' experience in a Senior Construction Environmental Management role.
- Experience with major projects (e.g., BC EAO-certified), and provincial and, federal permitting.
- Drafting, reviewing and implementing construction environmental management plans.
- A background in identifying and managing risk (environmental, compliance, corporate).
- Experience prescribing and monitoring environmental mitigation measures.
- Excellent time management, organizational skills and multi-tasking skills.
- Strong attention to detail and a commitment to quality, excellence, and ethics.
- Ability to work under pressure in a fast-paced, dynamic business with strict deadlines, budgets and quality standards.
- Strong computer skills including MS Office Suite.

APPLY NOW!

Interested applicants can send a resume and cover letter that clearly identifies their experience to apply@ecofishresearch.com. **Applications will be accepted until February 7th, 2020.** Only those applicants that are selected for an interview will be contacted. No phone calls please.
