

FIELD TASK MANAGER

Office Location: Terrace, BC

WHO IS ECOFISH LOOKING FOR?

We are looking for a dedicated and hard-working Field Task Manager to join our dynamic team! Are you looking for an opportunity to join a team of experienced and skilled professionals who thrive on innovation, collaboration, and integrity? While working alongside Ecofish experts in your field, we will support your career goals by providing great opportunities for growth and advancement through mentorship, training, and other professional development opportunities.

This role will be based in one of our eight office locations; however, Terrace or Fort St. John is preferred.

WHY ECOFISH?

At Ecofish, we have made the environment our life's work, as reflected by our mission: Creating and implementing innovative environmental designs and practices to create solutions that assist and support industry and government, deliver green, sustainable developments.

To achieve our mission, our team is the embodiment of our values:

- **Science based:** We characterize, hypothesize, predict and test – to be accurate and assure quality.
- **Ethical:** We consistently meet or surpass environmental laws, regulations, and guidelines to minimize impacts on the environment.
- **Ingenuity:** We develop novel techniques to increase accuracy in assessing environmental impacts and create innovative solutions for our clients.
- **Professional:** We are competent, honest, ethical, reliable, and certified by accredited bodies.

Ecofish incorporates these values in all aspects of our work. Social responsibility is at the core of our mission. Internally and externally, we bring a strong willingness to be cooperative and supportive of our clients, employees, and suppliers.

APPLY NOW!

Please send a resume and cover letter as well as three references to apply@ecofishresearch.com

Applications will be accepted until June 30, 2021. Only those applicants that are selected for an interview will be contacted. No phone calls please.

WONDERING WHAT YOU'LL BE RESPONSIBLE FOR?

Your role will require you to have a keen eye on health and safety while leading field work. These responsibilities will be in your domain.

- Lead ecological field studies focused on fisheries and aquatic resources, but also including water quality, climate, wildlife and other environmental information.
- Ensure company policies are followed, establish and alter work processes as required to achieve project objectives
- Ensure field tasks are completing on time and on budget, as defined in the scope of work
- Participate in field logistics planning and coordination and will coordinate field activities.

THE QUALIFICATIONS AND SKILLS WE ARE LOOKING FOR.

- Technical Diploma or Bachelor's Degree in a relevant environmental science or engineering.
- 2+ years of experience planning, coordinating, and managing field programs and leading field crews
- Experience developing and implementing safety plans OFA Level 1, swiftwater rescue, and electrofishing certificates are assets.
- Physically capable of working in remote locations, including in streams.
- Strong attention to detail and a commitment to quality, and excellence are key attributes.
- Effective and demonstrated communicator with strong inter-personal skills.
- Reliable, well organized, motivated, and self-managed.
- Quick learner, flexible, and team oriented.
