

SENIOR CONSTRUCTION ENVIRONMENTAL MANAGEMENT SPECIALIST

Science Practices Department
Office Location: Open

WHO IS ECOFISH LOOKING FOR?

We are looking for a dedicated and hard-working Senior Construction Environmental Management Specialist to join our dynamic team! Are you looking for an opportunity to join a team of experienced and skilled professionals who thrive on innovation, collaboration, and integrity? While working alongside Ecofish experts, we will support your career goals by providing great opportunities for growth and advancement through mentorship, training, and other professional development opportunities. This role will be based in one of our eight office locations, however the preferred location is Fort St. John or Terrace.

WHY ECOFISH?

The environment needs our help, and we are up to the challenge. At Ecofish, we have made the environment our life's work, as reflected by our mission: Creating and implementing innovative environmental designs and practices to create solutions that assist and support industry and government, deliver green, sustainable developments.

To achieve our mission, our team is the embodiment of our values:

- **Science based:** We characterize, hypothesize, predict and test – to be accurate and assure quality.
- **Ethical:** We consistently meet or surpass environmental laws, regulations, and guidelines to minimize impacts on the environment.
- **Practical:** We are reasonable and apply common sense to achieve outcomes when trade-offs must be made between development and environmental protection.
- **Professional:** We are competent, honest, ethical, reliable, and certified by accredited bodies.

Ecofish incorporates these values in all aspects of our work. Social responsibility is at the core of our mission. Internally and externally, we bring a strong willingness to be cooperative and supportive of our clients, employees, and suppliers.

APPLY NOW!

Please send a resume and cover letter as well as three references to apply@ecofishresearch.com

Applications will be accepted until the role is filled. Only those applicants that are selected for an interview will be contacted. No phone calls please.

WONDERING WHAT YOU'LL BE RESPONSIBLE FOR?

Your role will require you to have a keen eye on health and safety while leading field work. These responsibilities will be in your domain.

- Supporting a team of Construction Environmental Management planners and monitors.
- Technical leadership on construction environmental management projects.
- Drafting, implementing, and evaluating environmental strategies, compliance plans, and management systems.
- Environmental auditing.
- Providing senior review of Construction Environmental Management Plans and Environmental Protection Plans.
- Providing senior oversight and review of daily and weekly reports.
- Liaising directly with clients and construction contractors.

THE QUALIFICATIONS AND SKILLS WE ARE LOOKING FOR.

- 10+ years' experience in an environmental monitor role.
- Registered professional designation is an asset (e.g., R.P.Bio., P.Geo., P.Ag., or P.Eng.).
- Erosion and sediment control certification is an asset (e.g., CPESC, CISEC, CESCL)
- Experience with major projects (e.g., BC EAO-certified), and provincial and federal permitting.
- Drafting, reviewing, and implementing complex Construction Environmental Management Plans.
- Identifying and managing risk in the field of environmental compliance.
- Prescribing and monitoring environmental mitigation measures.
- Strong attention to detail and a commitment to quality and excellence is required.
- Effective and demonstrated communicator with strong inter-personal skills.
- Excellent time management, organizational skills, and multi-tasking skills.
- Ability to work under pressure in a fast-paced, dynamic business with strict deadlines, budgets, and quality standards.
